SKILLS SNAPSHOT

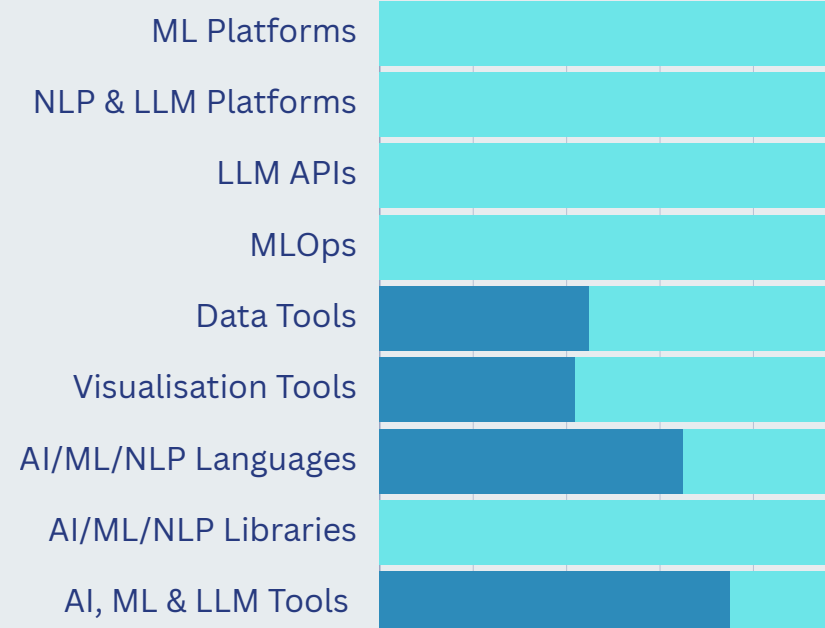

CANDIDATE SNAPSHOT

The candidate brings over 15 years of experience in data-driven financial analysis and AI transformation, making them a highly versatile asset for any organisation seeking innovation and operational efficiency. Their expertise spans developing enterprise-wide AI strategies, evaluating legacy systems, and implementing automation solutions that significantly improve workflows.

They have led cross-functional teams, managed stakeholder relationships at senior levels, and delivered impactful projects in ESG, sustainability, and alternative data. With a proven track record of expanding datasets, streamlining processes, and fostering strategic partnerships, the candidate's comprehensive skill set and leadership in AI and data analytics position them as an exceptional choice for driving technological advancement and business growth.
