CANDIDATE SNAPSHOT

An experienced Salesforce Solutions Developer, he excels in automation, integration, and platform customisation. His achievements include successful complex solution implementations, citing API implementations via HTTP callouts and Apex, whilst starting to dive into tools like MuleSoft and FlowGear.

He has led cross-functional teams, mentored junior admins, and optimised business processes through innovative use of APIs and automation. With a solid foundation in frontend technologies and data management, he offers a unique blend of technical expertise and strategic insight, making him a valuable asset for roles requiring Salesforce innovation, governance, and scalable solution delivery.
