CANDIDATE SNAPSHOT

He is a certified ServiceNow developer with five years of experience across ITSM, CSM, CMDB, and Performance Analytics. He has successfully led automation initiatives, including developing scoped applications and integrating ServiceNow with platforms like RSA IGL and Workday.

His achievements include streamlining onboarding, access provisioning, and infrastructure requests, as well as enhancing customer service workflows and analytics. With strong scripting, workflow design, and testing skills, he brings a proven ability to optimise processes, resolve incidents efficiently, and deliver scalable solutions as well as a collaborative approach that make him a valuable asset for driving digital transformation.
