CANDIDATE SNAPSHOT

He is an experienced UiPath certified RPA developer with a strong background in designing, developing, and deploying automation solutions. His achievements include creating end-to-end RPA workflows, integrating machine learning models, and optimising resource utilization through cloud-based platforms. He has successfully automated large-scale data gathering processes and developed predictive analysis models.

With a proven track record in improving efficiency and reducing operational costs, he brings valuable expertise in problem-solving, troubleshooting, and continuous support of automated processes. His skills in UiPath, SQL, APIs, and .Net make him a valuable asset for transformative automation initiatives.
