CANDIDATE SNAPSHOT

This candidate has nearly four years specialising in UiPath, he has developed and implemented numerous automation solutions. His expertise includes designing workflows, creating automation scripts, and integrating systems to streamline business processes. He has successfully overseen UiPath Orchestrator operations, ensuring smooth functionality and enhanced operational efficiency.

His achievements include developing and supporting new bots, optimising existing frameworks, and collaborating with stakeholders to align automation with business needs. He brings a strong ability to analyse user requests, manage RPA environments, document procedures, and has advanced automation skills.

PRODUCT EXPERIENCE

- Discover Products
- Automate Products
- Operate Products
