CANDIDATE SNAPSHOT

He is an experienced RPA developer with over six years of expertise in UiPath automation, specialising in end-to-end development, process analysis, and agile delivery. He has successfully implemented and maintained over 18 automation solutions, significantly reducing manual workload—saving more than 100,000 hours.

His proficiency spans UiPath Orchestrator, test suite, and integration with various platforms including legacy systems, SharePoint, and Power BI. He brings strong communication, QA, and process optimisation skills, making him a valuable asset for driving automation initiatives and enhancing operational efficiency.
